A case at the Prosecutor's Office of Central Lampung was started when a Notice of Investigation Commencing Letter (Bahasa: Surat Pemberitahuan Dimulainya Penyidikan (SPDP)) is received from the police investigator to be followed up and processed. The period of the processed case by the Prosecutor's Office According to the Law / Regulation and it is established to handle the process of the management system at the Central Lampung Prosecutor's Office to assist the case handling process so that the prosecutor does not have to come to the prosecutor's office to register for case handling.

The establishment of an information system for case handling supervision tools at the Central Lampung Prosecutor's Office was able to view the files submitted by the applicant for completeness of the files and it can minimize manipulation of the files submitted.

This system contained the case file reporting. With this system management, it is expected to be the first step for the community in finding out the flow of a case applied by the prosecutor's office so that it became more effective and disciplined.
