**ABSTRACT**

This study aims to empirically prove the Effect of Sustainability Report, Operating Profit Margin and Company Growth on Company Value in financial sector companies listed on the Indonesia Stock Exchange in 2020-2021. The source of data used in this study is secondary data in the form of the company's annual report. The research method used is quantitative method. The population in this study is Financial Sector Companies listed on the Indonesia Stock Exchange (IDX) in 2020-2021. The sampling technique used is the purposive sampling method, so that a sample of 28 companies can be obtained with research conducted for two years in 2020-2021, so that the amount of data in this study amounts to 56 data. The analysis method used is multiple linear regression with SPSS program version 23. The results showed that the Sustainability Report affects the value of the company, Operating Profit Margin does not affect the value of the company and Company Growth affects the value of the company.

**Keywords:** Sustainability Report, Operating Profit Margin, Company Growth, Company Value
