LPPM (Lembaga Penelitian dan Pengabdian pada Masyarakat) sebagai wadah dalam proses Tridharma Perguruan Tinggi. Salah satu kewajiban dosen menjalankan penelitian, pengabdian dan mempublikasi hasil. Namun ,sistem informasi yang ada saat ini berisi informasi seputar profil Institusi, program studi dan informasi terupdate. Pada saat ini website tracking penelitian , pengabdian dan publikasikan hasil penelitiannya belum tersedia di Institut Informatika Dan Bisnis Darmajaya. Penelitian ini bertujuan menerapkan metode prototype dalam pengembangan sistem dan implementasi sebuah desain produk yang akan dibangun. Website yang dibangun untuk dosen Institut Informatika dan Bisnis Darmajaya dapat memudahkan para dosen dalam melaksanakan tracking penelitian, pengabdian dan publikasikan hasil .

Kata kunci : LPPM, prototype , penelitian, pengabdian dan publikasi

ABSTRACT

LPPM (Institute of Research and Community Service) as a forum for the Higher Education Tridharma process. One of the obligations of lecturers is to carry out research, service, and Publication. However, the current information system only contains information about institutional profiles, study programs and updated information. The website for tracking research, community service, and Publication of research results has yet to be available at the Institute of Informatics and Business Darmajaya. Hence, this study aims to apply the prototype method in the system development and implementation of a product design to be built. The website that was built for lecturers at the Darmajaya Institute of Informatics and Business can make it easier for lecturers to carry out research tracking, dedication and publish results.
