ABSTRACT

The objective of this research was examining empirically the effect of the board's budget knowledge, the public participation, the public policy transparency, and the public accountability on the regional financial supervision. The subject of this research was the board of legislative assembly. The type of the data of this research was the primary data in the form of the respondent perceptions. The data collecting technique used in this research was distributing the questionnaires. The sampling technique used in this research was the purposive sampling. The number of samples used in this research was 40 respondents. The data analyzing technique used in this research was the multiple linear regression analysis. The result of this research was that the board budget knowledge, the public participation, the public policy transparency, and the public accountability did not affect the regional financial supervision.
