

## ABSTRACT

### THE EFFECT OF CORPORATE SOCIAL RESPONSIBILITY ON FINANCIAL PERFORMANCE AND FINANCIAL STABILITY IN STATE-OWNED COMPANIES

By:

Texy Sagara

The purpose of this research was to find the effect of Corporate Social Responsibility (CSR) on financial performance and financial stability. The type of research used was quantitative research with a casual associative approach. The population in this study were state-owned companies (Indonesian: BUMN) registered on the IDX. The sampling technique used the purposive sampling, and the sample of 15 non-financial state-owned companies was obtained. The data analysis method used the panel data analysis. The result of this research found that Corporate Social Responsibility had a significant positive effect on the financial performance and the financial stability.

**Keywords:** Corporate Social Responsibility, Financial Performance, Financial Stability.
