ABSTRACT

The objective of the research empirically examined the effect of the internal control effectiveness, the compensation suitability, the ethical culture, the information asymmetry, the regulation enforcement and the organizational commitment on the tendency of accounting fraud. The method used in this research was the purposive sampling method with the sample of 72 respondents. The data analysis method in this research used the multiple linear regression analysis. The results of this study indicated that the internal control effectiveness, the enforcement of regulations, the conformity compensation, the information asymmetry affected the tendency of fraud accounting, while the ethical culture and the organizational commitment did not have any effects on the accounting fraud tendency.

Keywords: Tendency of Accounting Fraud, Internal Control Effectiveness, Compensation Suitability, Ethical Culture, Asymmetry of Information, Enforcement of Regulations, Organizational Commitment.
