SMK-SMTI Bandar Lampung beralamat di Jl. Jend. Sudirman No. 43 Kelurahan: Rawa Laut, Kecamatan Enggal Kota Bandar Lampung, Lampung. SMK-SMTI Bandar Lampung termasuk sekolah Negeri di bawah naungan kementerian perindustrian dengan NPSN 108114611. Pada tahun 2015 SMK SMTI Bandar Lampung mendapatkan akreditasi A (unggul) dari badan akreditasi nasional.

Proses asesmen di SMK-SMTI Bandar Lampung masih menggunakan media kertas dan mengalami kesulitan dalam pelaksanaannya. Kendala yang terjadi disebabkan terlalu banyaknya kertas dan juga kesulitan dalam mencari berkas yang ingin digunakan, selain itu masalah dalam penyimpanan, karena masih menggunakan media kertas maka perlu ruang penyimpanan yang memakan tempat.

Proses mempermudah pemeriksaan berkas para siswa oleh asesor pada SMK-SMTI Bandar Lampung dengan cara menampilkan informasi berkas terlampir pada sistem berupa raport dan sertifikat. Berdasarkan penelitian yang dihasilkan dapat diketahui proses pemeriksaan dirasa lebih mudah karena perhitungan hasil asesmen dapat langsung dilihat tanpa melakukan perhitungan ulang

SMK-SMTI Bandar Lampung is located at Jl. Gen. Sudirman No. 43 Kelurahan: Rawa Laut, Enggal Subdistrict, Bandar Lampung City, Lampung. SMK-SMTI Bandar Lampung is a public school under the auspices of the ministry of industry with NPSN 108114611. In 2015 SMK SMTI Bandar Lampung received an A (superior) accreditation from the national accreditation body.

The assessment process at SMK-SMTI Bandar Lampung still uses paper media and has difficulties in its implementation. Constraints that occur are due to too much paper and also difficulty in finding the files you want to use, besides problems in storage, because they are still using paper media, they need storage space that takes up space.

The process makes it easier to check student files by assessors at SMK-SMTI Bandar Lampung by displaying file information attached to the system in the form of report cards and certificates. Based on the resulting research, it can be seen that the inspection process is considered easier because the calculation of the assessment results can be directly seen without re-calculation
